

Section 3 Worksheet Answers Magruder's Government

Chapter 1 : Section 3 Worksheet Answers Magruder's Government

3. question – how do u do batch testing in wr & is it possible to do in qtp, if so explain? atch testing in wr is nothing but running the whole test set by selecting run test set from the execution grid. You are the guru! it's working perfectly. actually this is a simplify version of what we are looking for. the actual one is to match the long docname against 3 I would place the macro in your personal section, this way the macro is available in all worksheets. do this by recording a dummy macro and select to store it in personal macro workbook. Richie – good point. if the current ranges are invalid, and the chart is a line or xy type, vba cannot access the series formulas. at least it couldn't in excel 2003 and earlier.
